

Module 4) HR Questions

1. Outline your career goals and where you see yourself in the next few years.

- Looking ahead, my career goals involve continuous growth and expansion. In the next few years, I aim to sharpen my expertise in front-end development. I also aspire to explore adjacent areas like UX/UI design and backend development to gain a comprehensive understanding of the entire development process.
- One of my long-term aspirations is to work abroad for my personal growth and new perspectives.

2. Detail the roles and industries you are interested in.

- In terms of roles, I am primarily interested in positions that allow me to leverage my front-end development skills to create engaging and user-friendly experiences. Whether it's as a Front-end Developer, UI/UX Designer, or a combination of both.
- As for industries, I am drawn to sectors that are at the forefront of innovation and have a strong focus on technology-driven solutions.
- I am flexible and eager to explore opportunities that align with my skills, interests, and values, regardless of the specific industry. I believe that by staying curious and adaptable, I can make meaningful contributions and continue growing professionally in any environment.

3. Highlight specific goals or milestones you aim to achieve.

- In addition to my career goals in front-end development, I have a personal aspiration to move abroad and experience working in an international setting. Moving abroad presents an opportunity for personal and professional growth, allowing me to immerse myself in different cultures, broaden my perspectives, and expand my professional network on a global scale.
